

MAI MISHAM ELEMENTARY SCHOOL – WATER PROJECT

The Mai Misham Elementary School was started in 1936 under the shade of a big oak tree. Children sat on rocks. In 1957, it became a full-fledged elementary school. Children who started their education at Mai Misham are now professionals in many fields. We need your help to continue to provide quality education to today's children and future children at the school for a better future.

In 2010 we assisted in the establishment of a library. Unfortunately, the school has many needs including lack of drinking water, electricity, telephone, or good access road. Our current project is to provide the children with water supply by building a rain water collection system, for which we need your support. Please fill out the form below and return it with your check payable to the **Center for Cultural Dynamics**. The Center for Cultural Dynamics is a 501(c)(3) organization and your donation is tax deductible. Thank you.
