We Tigrean Students of AAU would like to express our deep sense of condolence on the death of our hero brother Tegadalay Iyasu Berhe. We had a lot of unfinished projects with him. The successful summer campaign that took place last summer was initiated and organized by him (Iyasu). Over 16 thousand Tigrean university students were participating in the campaign in a wide spectrum of activities like forestation, adult education, tutoring high school students...etc.

He used to contact us once every semester. He gave us many unforgettable advices. He taught us Tigrawaynet. He influenced us in many ways to be always in the right track as a Youth. We don't have even the words to express what he did for us. People know Iyasu as an Artis, Jegna Tegadalay and a creative writer. But he was also a philosopher. He was the most up-to-date person. He can do any thing any time any where. Iyasu was really irreplaceable person.

This is a big loss to us but we will try to keep our promise to him by continuing the campaign with out him. We also hope that there are people by our side.

May God rests his soul in paradise.

We will be missing you forever.

Tigrean Students of AAU.
