

FACE THE CHALLENGE
TO CLUTCH THE DREAM OF THE
GENERATION

PERSEVERANCE AND HOPE

Tezera Asegu / London, UK/

Perseverance incurs success
Success leads to determination,

Relentless endeavours escorts triumph
The impenetrable will be passable,

Generations consider as a fable
Hard was to manoeuvre the affluence of Nile,

Hope & perseverance reciprocal
Devotion avow hope,

The trialling voices of the birds
The flora & fauna of Nile will sparkle,

Tranquillity will prevail
The beauty of the Nile magnifies,

Nile embarrasses its indigenous vendors
No more partiality, but fairness,

As usual be the flow of Nile
Minute erosions & devastation annihilate,

Bestows its Natural mammon
Delight, unity & rejoice prevails,

Nile not only longer
Dipper will be in its entity,

The rainbow of the Nile fountain
Shines, dazzles & enlightened,

The day be more splendid
The night visible with naked eyes,

The children of Nubians
Enjoy & sip the chattels of their affluence,

Our history will be re- birth
Nile galvanizes its beneficiaries,

Nile ties together its beneficiaries
The beauty of the dam,

Echoes & sparks the essence of belongings
Nile is equitable and indistinguishable all vendors,

No more war emanates & caused
Bright hope, future and harmony,

Nile, Nile, Nile.....

Blossom and no more murmur against us,

Brightness and prosperity
Flow in our sprit & heart,

Socio political

Economical ties sways in Africa,

The renaissance dam will block nothing
But poverty, suspicion, division and darkness

Ethiopia once again plays a role in fetching change
Particularly to African's in general to the globe

Remarkable civilizations re-emerge
Around the shore of Nile and the surroundings

The Ethiopian flag blows again
Nile will make history and gleaming

Let's play our part
For bright future

Let us pour the blessed water of Nile
Through the long awaited

Desiccated throat of the vendors of Nile
Make history again, put your finger print

To be recalled generation to generations
As our gallant ancestors had done so

It is not a myth
But for sure
Ethiopia will prevail.
