

## One traveler – One Book !!

Dear Tigray Festival travelers,

The count-down for Festival Tigray 2014 is on and excitement is building up! People back home are ready and looking forward to welcoming each and every one of us.

On this welcome note, consistent with the objectives of the Festival, the organizing committee is determined to make the event as festive as it can be, but also one that delivers concrete results for our people back home.

In making use of this rare opportunity, we are sending this letter on behalf of the Festival Tigray organizing committee to kindly request for your help in supporting our Universities that are in desperate need of text books. As we all know, shortage of text books and other reference materials is a big challenge especially in the newly established universities in Ethiopia..... two among them are Axum and Adigrat universities.

As Heinrich Mann said....."*A house without books is like a room without windows*'

We can all be part of the solution. As some of you might have already started shopping for the trip back home, please remember to add a book to your shopping cart this time.

To make sure that we all carry relevant books we have compiled and attached a list of books with the support of Axum University. Collectively these small contributions have a huge impact on the success and academic achievement of our brothers and sisters.

Text books or reference books can easily be purchased online at '[amazon.com](http://amazon.com)' or maybe from your local bookstore. As our way of recognizing your great contribution to strengthening the capacity of our universities, you are welcome to sign your name on the first page of the book.

Your book donations will be collected during the festival in Mekele and handed over to Axum and Adigrat universities.

Should you need further clarification, please contact the festival organizers via email at: [Tigray.Festival2014@gmail.com](mailto:Tigray.Festival2014@gmail.com) or [Festival.Tigray2014@gmail.com](mailto:Festival.Tigray2014@gmail.com)

Make a difference and support our newly established universities by donating a text book.

See you in Mekelle !!

Regards,

**Festival Tigray 2014 Organizing Committee**
