

**OUR SISTER IS IN NEED OF OUR GENEROSITY!!**

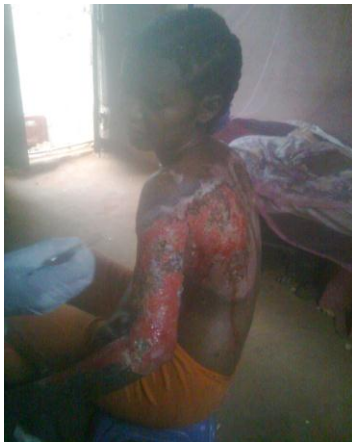

Shewete Hailemariam came out of a ringing kitchen fire burn alive, but now she has to fight for her life and a normal future. She is 16-year-old female, and has 40% of her body burned, severely damaged left arm, and burns on her left breast, and her entire back. Sadly she was in a neighboring country, Sudan, in search of a better life and waiting to try her luck to make it to the western world. It has been only 3 months since she flee her country and only 1 month since she was hired to work as a cook assistant in one small restaurant in Khartoum.

**Fig.1 A private physician helping her after she was rejected from public hospital in Sudan**

**Fig.2 Shewete (left), when she was normal and happy**

**Fig.3 Her left hand and back is seriously burned and need serious surgery**

She was thrown out on the street without any help. Her family transported her from Sudan to Shire Endaselasia, but she is without proper medical treatment and badly needed surgery. Her needed surgery is beyond the facility and medical personal available in the region. **Her families are poor and don't have enough to support her basic needs let alone to send her abroad and get the needed treatment and surgery. They are asking for your generous help, so that Shewete can have a second chance in life.**
