SECOND INTERNATIONAL CONFERENCE ON ENGINEERING, SCIENCE, AND TECHNOLOGY

CALL FOR PAPERS

CONFERENCE THEME

INNOVATIVE IDEAS AND ADAPTABLE TECHNOLOGIES FOR GROWTH AND TRANSFORMATION

Mekelle Institute of Technology, founded to contribute its part in alleviating the shortage of professionals in critical fields of engineering, science, and technology, is preparing to celebrate its Tenth Year Anniversary. A non-profit, elite school being funded by the Endowment Fund for the Rehabilitation of Tigray is assisting the socioeconomic development of Ethiopia by preparing highly qualified workforce in engineering, science, and technology, introducing modern science and technology via dedicated scholarship, research and development, and good public relations, assisting in the transfer of science and technology, and promoting better tradition of executing higher education programs. The Second International Conference, thus, will be a platform for **celebrating the contributions of the Institute and sharing innovative ideas that promote national growth and transformation**. The event shall also be an important showcase for the Institute's Alumni to tell their career stories.

CONFERENCE MISSION

The Mission of this Second International Conference is to celebrate the contributions of the Institute and share innovative ideas and adaptable technologies that would promote national growth and transformation among professionals, academia, entrepreneurs, policy makers, and students.

CONFERENCE SUBTHEMES

The Conference focuses on **Innovative Ideas and Adaptable Technologies** in the fields of biosciences, chemical, computer, electrical, electronics, and information communications engineering and technologies that enhance efforts in various sectors including: agriculture and food security, defense and national security, education, health and population services, energy and power, financial and service industries, governance and social services, industry and manufacturing, and transport and telecommunications.

PAPER SUBMISSION

Interested individuals and teams are cordially invited to actively participate and submit their papers. All submission will be reviewed by experts and accepted and presented manuscripts will be published in a conference proceeding.

FORMAT OF MANUSCRIPTS: IEEE
